	Allowable Down Time		30.0		23.5		19.5		14.0		11.5
	Fuel Surcharge <sup>5</sup>										
<b>TOTAL FEE FOR FULL TESTING</b>		<b>\$210,679</b>	<b>128.0</b>	<b>\$179,060</b>	<b>99.0</b>	<b>\$141,780</b>	<b>74.0</b>	<b>\$123,560</b>	<b>58.0</b>	<b>\$105,570</b>	<b>46.0</b>
<b>MANUFACTURER'S FEE<sup>6</sup>(20% of total fee)</b>		<b>\$42,135</b>		<b>\$35,812</b>		<b>\$28,356</b>		<b>\$24,712</b>		<b>\$21,114</b>	

<sup>1</sup> Totals in bottom two rows represent full testing (and manufacturers 20% portion) and reflect set-up cost saving realized by combining the tests performed on the dynamometer

<sup>2</sup> Days indicate approximate time for test completion not including downtime due to reliability problems, parts deliveries, weather and items beyond the control of operator.

<sup>3</sup> Reliability and Maintainability cost and time are included in the Structural Durability Test.

<sup>4</sup> Fee for performance test only will be \$10,000; fuel economy test only will be \$16,000; and performance and fuel economy tests together will be \$19,000.

<sup>5</sup> Fuel surcharge is determined based on type of fuel, category of bus, and date of contract.

<sup>6</sup> Manufacturer's portion of the test fee shall pay for the first twenty percent (20%) of the test cost incurred. Prorated Refund: If manufacturer withdraws the bus from testing before the first twenty percent of the test costs have been incurred, Manufacturer is entitled to a refund for tests not performed equivalent to \$785 times the days required to complete the first twenty percent of the test schedule; if the bus is withdrawn after the first twenty percent of testing is completed, manufacturer is entitled to no refund. Non-routine maintenance, extraordinary repairs, and Operator's observation of maintenance performed by manufacturer shall be billed at actual time expended and cost of materials.
